

EMERGENCY REPAIR STATEMENT

In order to qualify for the Emergency Repair Program, a property must meet the definition as unfit for human habitation. This definition is listed below.

Please carefully read the definition, and if you believe that the condition in your property meets the criteria sign the certification.

A City employee will inspect your property to verify that the unfit for human habitation criteria is actually met. Only upon approval by the City will the application be processed.

DEFINITION

A dwelling, dwelling unit, or rooming house is unfit for human habitation when it is damaged, decayed, dilapidated, unsanitary, unsafe, vermin-infested, lacks illumination, ventilation, or required sanitation facilities to such an extent as to create a clear and present danger to the health, life and safety of occupants

I have read the definition above and certify that my property meets the criteria for the Emergency Program for the following reason(s):

Table with 6 rows and 2 columns for listing reasons.
