FY 2011 Spending Bill

Despite Budget Cuts, Many Grant Programs Critical to Local Governments Survived

Shortly before midnight on Friday, April 8th, President Obama and leaders from the House and Senate reached a deal to fund the federal government through the end of Fiscal Year 2011 (September 30, 2011). Both the Senate and the House are expected to vote upon this legislation by the end of the week. The legislation must be passed by 11:59 p.m. on April 15th to avoid a government shutdown.

Although this legislation contains nearly \$40 billion in total spending cuts, approximately \$17 billion of this total will come from changes to mandatory spending programs. As a result, the legislation reduces discretionary spending by less than \$23 billion compared to FY2010.

While several programs of interest to local governments did receive funding reductions, many of the most important grant programs available to communities were preserved at near-FY 2010 levels, including: TIGER, HUD Sustainable Communities, EDA Public Works and Infrastructure, EPA Brownfields, COPS Hiring, Assistance to Fire Fighters, and many more. Thanks to aggressive advocacy by communities across the country, many of the most important grant programs were preserved.

Details of the program funding levels that are of interest to local governments are provided in the tables below. All totals listed here will be automatically reduced by an across-the-board rescission of 0.2%.

TFG will continue to keep you updated as this important legislation moves forward and is implemented. As new opportunities for federal grant funding for local projects are announced, we stand ready to help you compete for these important opportunities.
